## U.S. Seasonal Drought Outlook Drought Tendency During the Valid Period

Valid for March 1 - May 31, 2024  
Released February 29, 2024

# 2024 Conservation *Irrigation season actions*

- 1) Develop an automated (48-hr continuous usage alert) leak notification for customers with AMI meters and create an instructional video to assist customers in signing up for the portal and setting alerts
- 2) Convert 10% of existing irrigation accounts that are within 200 feet of reuse lines to non-potable accounts
- 3) Complete the Nonfunctional Turfgrass Plan and start implementation
- 4) *Water Waste Reduction Ordinance modifications*
- 5) Drought Measure: Send targeted conservation information to our top 5% water users (Residential and Irrigation-Only sector)
