
Meeting Date: August 17, 2022
Staff Contact: Mike Arellano, Fleet Management Superintendent

TITLE: C-22-32 – Approval of Two Vendors for Tires and Tire Services

ACTION: Recommend Approval

Summary:

The Albuquerque Bernalillo County Water Utility Authority (Water Authority) issued the Request for Proposals (RFP) P2022000011, Tire and Tire Services Repairs to solicit proposals from qualified vendors to provide automotive and heavy equipment tires and tire services for the Water Authority.

The RFP was posted on the BidSync website and advertised in the local newspaper. Three responsive offers were received and submitted for evaluation. The Ad Hoc Committee reviewed, evaluated, and scored the responses in accordance with the evaluation criteria published in the RFP.

Based on the recommendation of the Ad Hoc Committee, the Executive Director recommends the award of a contract to Southern Tire Mart, and Bill Williams as these Contractors had the highest composite scores, are qualified to perform the work, and meet the requirements of the RFP.

Approval of this item will delegate signature authority to the Water Authority to enter into a contract with Southern Tire Mart, and Bill Williams to perform as needed repairs, services, and tires. Approval of this item shall also serve as delegation of authority for the Executive Director to approve all future amendments to these agreements, if any.

If approved by the Board, Agreements will be executed between the Water Authority and these Vendors to provide as needed tires, parts, and services.

FISCAL IMPACT:

\$230,000.00 excluding NM GRT for the first year of the initial four-year term for which appropriations have already been made.

Approval of this item shall also serve as delegation of authority for the Executive Director to approve all future amendments to this contract, if any.

Albuquerque Bernalillo County Water Utility Authority (Water Authority)
TERMS AND CONDITIONS

IMPORTANT: READ CAREFULLY BEFORE PROVIDING GOODS, SERVICES OR CONSTRUCTION. FAILURE TO DO SO WILL NOT RELIEVE VENDOR OF RESPONSIBILITY TO PERFORM OR DELIVER IN ACCORDANCE WITH ALL APPLICABLE PROVISIONS.

- 1. General:** This price agreement is authorization to provide the goods, services or construction described on its face in accordance with the Terms and Conditions set out below and any attached offer submitted by Vendor and accepted by the Water Authority. These constitute the terms of the contract between the parties. If this price agreement results from a formal solicitation or separate contract, all or part of those documents are also made a part of the contract as specified in those documents referenced in this price agreement and will control over any conflicting provisions in these Terms and Conditions. Unless otherwise provided, this is an indefinite quantity contract; it is not exclusive to Vendor; the Water Authority may make similar purchases from other vendors as needed; and the Water Authority is not obligated to make any amount of purchases under the contract.
- 2. Packing, Shipping and Invoicing:** Department name AND price agreement number MUST be on all invoices, packages, packing slips, bills of lading, etc. The Department's count will be accepted by the Vendor as final and conclusive on all shipments not accompanied by a packing slip. Vendor will bear all risk of loss or damage until delivery to the Water Authority. Shipment is F.O.B. Destination unless price agreement states otherwise.
- 3. Delivery and Inspection:** Delivery will be strictly in accordance with the Water Authority's delivery schedule and instructions. Final inspection and acceptance will not be deemed to be a waiver by the Water Authority of its right to (a) cancel, reject or return, at Vendor's risk and expense, all or any portion of the goods, services or construction, or (b) make a claim for damages. Payment prior to inspection does not constitute acceptance.
- 4. Payment Terms/Discounts:** Payment terms are net thirty (30) days unless otherwise specified in the contract. Discounts, if offered, will be computed from the date of actual delivery or receipt of invoice, whichever is later.
- 5. Taxes:** All applicable gross receipts taxes are assumed to be included unless otherwise specified. The Water Authority will furnish, on request, a Non-Taxable Transaction Certificate. Determination of whether the tax is due and payment of the tax is the responsibility of the Vendor. Applicable taxes should be included in each invoice and may not be billed more than sixty (60) days after providing the goods, services or construction to which the taxes apply.
- 6. Commercial Warranty:** Vendor agrees that it will provide the Water Authority with the most favorable commercial warranties which Vendor gives to any customer for the goods, services, or construction and that the rights and remedies provided herein will extend to the Water Authority and are in addition to and do not limit any rights afforded to the Water Authority by law or under this contract. Vendor agrees not to disclaim warranties of fitness for a particular purpose or merchantability. All of Vendor's representations and warranties, both express and implied, constitute conditions of this contract. In the event that the goods, services or construction are found to be defective or fail within the warranty period, Vendor will, at its own expense, promptly remedy the defects.
- 7. New Material:** All items provided under this contract will be NEW and of most current production, unless otherwise specified.
- 8. Indemnification:** Vendor agrees to indemnify and hold harmless the Water Authority, its Board, officers, agents and employees against any and all damages, claims, expenses or other liability, including attorneys' fees, arising out of any (a) alleged or actual infringement or misappropriation of any copyright, patent, trademark, trade secret or other right based upon the goods, services or construction provided by Vendor pursuant to this contract; (b) negligence or willful misconduct of Vendor; (c) Vendor's failure to perform fully its obligations herein in a timely manner; or (d) breach of any of Vendor's representations and warranties herein.
- 9. Insurance:** Vendor will maintain in effect during the term of the contract, insurance of the kinds, in the amounts and in the form specified by the Water Authority, including, but not limited to: Commercial General Liability Insurance, Business Automobile Liability Insurance, and Workers' Compensation Insurance. As proof that such insurance is in effect, Vendor will furnish certificate(s) of insurance in a form satisfactory to the Water Authority prior to providing goods, services or construction under the contract.
- 10. Right to Audit/Inspection of Plant:** Vendor will maintain complete and accurate records of all financial transactions associated with this contract, including, but not limited to, invoices and other official documentation which sufficiently support all charges under this contract. Vendor will retain such records for six (6) years after final payment, or longer if required by law. Authorized representatives of the Water Authority may inspect and copy records pertaining to this contract at the Vendor's business office during normal business hours. Vendor will include this audit provision in any subcontracts that it may issue under this contract. The Water Authority may inspect, at any reasonable time, Vendor's plant or place of business related to the performance of this contract.
- 11. Default:** The Water Authority will have the right to cancel all or any part of this contract without cost to the Water Authority if the Vendor fails to meet the provisions of this contract and, except as otherwise provided herein, to hold the Vendor liable for any excess cost incurred by the Water Authority due to Vendor's default. Vendor will not be liable if failure to perform the contract arises out of causes beyond the control and without the fault or negligence of Vendor; such causes include, but are not restricted to, acts of God or the public enemy, acts of the State or federal government, fires, floods, epidemics, quarantine restrictions, strikes, freight embargoes, unusually severe weather and defaults of subcontractors due to any of the above, unless the Water Authority determines that the supplies or services to be furnished by the subcontractor were obtainable from other sources. The rights and remedies of the Water Authority provided in this paragraph are not be exclusive and are in addition to and do not limit any rights afforded to the Water Authority by law or under this contract.
- 12. Termination:** The Water Authority will also have the right to terminate the contract upon the occurrence of any one or more of the following events: (a) if sufficient appropriations are not made by the Water Authority Board. Such event will not be an event of default and the contract may be terminated at the end of the Water Authority's then current fiscal year upon written notice given by the Water Authority to Vendor; (b) without notice to Vendor, upon receipt of a notice of debarment of or ineligibility to receive funds by Vendor from any agency of the federal government or the State of New Mexico or a local public body of the State. (c) if Vendor is found to have engaged or is engaging in Unfair Business Practices as described in Section 2-376 of the Water Authority Procurement Ordinance; or (d) at any time for convenience by giving at least thirty (30) days' notice in writing to Vendor. In such event, Vendor will be paid under the terms of the contract for all goods, services or construction provided to and accepted by the Water Authority prior to the effective date of termination.
- 13. Assignment/Changes:** Neither the contract, nor any interest therein, nor claim thereunder, may be assigned or transferred by Vendor, except as expressly authorized in writing by the Water Authority. No such assignment or transfer will relieve Vendor from the obligations and liabilities under this contract. The terms of the contract may not be changed without the prior written approval of the Water Authority.
- 14. Compliance With Laws:** In performing the contract, Vendor will comply with all applicable laws, ordinances and codes of the federal, State and local governments, including, but not limited to the New Mexico Governmental Conduct Act, the New Mexico Human Rights Act, Title VII of the federal Civil Rights Act of 1964, the Americans with Disabilities Act of 1990, and all federal, State and local statutes, regulations and executive orders relating to civil rights. In addition, Vendor certifies that (1) it has not, either directly or indirectly, entered into action in restraint of free competitive bidding; (2) it will comply with the Ethical Conduct provisions (§2-390) and Unfair Business Practices provisions (§2-376) of the Water Authority Procurement Ordinance; and (3) it presently has no interest and will not acquire any interest, direct or indirect, which would conflict in any manner or degree with the performance of this contract. Vendor will obtain and maintain, and furnish to the Water Authority upon request, any and all permits, licenses, approvals, certificates and other documents required by the Water Authority, or otherwise required by applicable law.
- 15. Governing Law:** This Contract is governed by the laws of the State of New Mexico without regard to principles of conflicts of law. Any and all actions or proceedings relating to the subject matter of this contract will be maintained by and subject to the jurisdiction of State and federal courts located in Bernalillo County, New Mexico, which courts will have exclusive jurisdiction for such purposes.

IMPORTANT NOTICE: Before accepting a price agreement, always check for authenticity and require identification. The Water Authority will not be liable for purchases made by unauthorized individuals. (Rev. 07/01/2018)

Albuquerque Bernalillo County
Water Utility Authority

**ADVERTISEMENT FOR PROPOSALS
FOR PROFESSIONAL TECHNICAL SERVICES**

**REQUEST FOR PROPOSALS NAME: TIRE AND TIRE SERVICES
REQUEST FOR PROPOSALS NUMBER: P2022000011**

Sealed Proposals from individuals and firms to provide the services described below shall be submitted to the office of the Albuquerque Bernalillo County Water Utility Authority (“Water Authority”) electronically through the Water Authority’s eProcurement provider, BidSync, no later than 2:00 p.m. local time on May 25,2022. Electronic submittal of Proposals by the deadline is required unless preapproved by the Water Authority. No Proposals will be accepted after the time and date specified. The Water Authority is not responsible for the delivery of Proposals.

This Request for Proposals (“RFP”) and any issued Addenda are available on the Water Authority eProcurement system, accessible through the Water Authority’s website at <https://www.abcwua.org/info-for-builders-solicitations/> or by contacting the Water Authority Purchasing Office at (505) 289-3227.

A Pre-Proposal conference will be held on May 11,2022, at 10:00am, via Webex at:

Attendance at the Pre- Proposal Conference for this RFP is NOT mandatory to qualify to submit a Proposal but is highly recommended.

The Albuquerque Bernalillo County Water Utility Authority (“Water Authority”) operates a diverse fleet of vehicles ranging from passenger vehicles and light duty trucks to heavy duty trucks, and “off road” vehicles. Tires and services for vehicles will be requested on an "as-needed" basis. The intent of this solicitation is to award an indefinite quantity price agreement or agreements for tires and related tire service.

Date: 04/25/2022

PART I INSTRUCTIONS TO OFFERORS

1. Specific Instructions: Instructions specific to this RFP and the resulting Agreement are contained in Part II, Special Instructions.

2. Time and Place for Receiving Proposals: The date, time and place for the receipt of Proposals is specified in the Advertisement for Proposals.

3. Pre-Proposal Conference: Information regarding the date, time and place for a Pre-Proposal conference for this RFP, if held, and whether it is mandatory is specified in the Advertisement for Proposals. A Pre-Proposal Conference may be conducted to provide additional information concerning the RFP. When attendance is mandatory, failure to attend shall disqualify the prospective Offeror from submitting a Proposal. If the Offeror is a joint venture, the attendance by any authorized representative of any of the parties to the joint venture will satisfy this requirement. Whenever attendance is not specified as mandatory, prospective Offerors are encouraged to attend. Offerors should be prepared to ask questions or request clarifications regarding the Services and the RFP Documents at a Pre-Proposal Conference.

4. Authority: This RFP is governed by the Bernalillo County Procurement Ordinance (the "Procurement Ordinance"), which the Water Authority has adopted pursuant to the powers granted in Section 72-1-10 NMSA 1978, to govern all purchasing transactions of the Water Authority; the Rules Governing Procurement for the Albuquerque/Bernalillo County Water Utility Authority (the "Rules"), and the Water Authority's Approval Resolution designating approval authority for Water Authority contracts, purchases and procurement documents ("Approval Resolution"). Additional statutes, ordinances, resolutions and regulations may apply. By submitting its Proposal, the Offeror agrees to comply with these authorities.

5. RFP Documents: This Request for Proposals ("RFP"), also referred to as the RFP Documents, contains the following:

- Cover Page
- Advertisement for Proposals
- Part I, Instructions to Offerors
- Part II, Special Instructions
- Part III, General Terms and Conditions
- Part IV, Proposal Instructions and Forms
- Appendix A, Scope of Services

The terms used in the RFP Documents shall have the meanings assigned to them in the Procurement Ordinance and in the General Terms and Conditions contained in this RFP. The terms RFP, Proposal, and Contract as used herein, include all Addenda, modifications, amendments and supplements to these documents unless otherwise stated.

The Water Authority assumes no responsibility for errors or misinterpretations resulting from the use of incomplete RFP Documents.

6. Contacts: This RFP is issued by the Water Authority's Central Purchasing Office, which is the sole point of contact during the entire procurement process. All questions regarding the Services or this RFP should be directed to the following Purchasing representative or submitted anonymously using the question feature in BidSync:

Jose Garcia, Senior Buyer, Purchasing Office
Albuquerque Bernalillo County Water Utility Authority

Phone: (505) 289-3211; Fax: (505) 289-3249

Email: josegarcia@abcwua.org

Address: Post Office Box 568, Albuquerque, New Mexico 87103-0568

The Agreement(s) resulting from this Request for Proposals will be managed by the Water Authority's Central Purchasing Office.

7. Interpretation of RFP: Any explanation desired by an Offeror regarding the meaning or interpretation of the RFP may be requested in writing at any time. For best consideration, questions should be submitted at least **ten (10) calendar days** prior to the date for receipt of Proposals unless deemed critical by the Water Authority or a shorter deadline for questions has been provided in the Advertisement for Proposals or in an Addendum to the RFP. Questions shall be submitted to the Purchasing representative in writing and may be submitted via email or submitted anonymously using the question feature in BidSync. Any interpretation of the documents will be made only by Addendum duly issued. Verbal answers, oral explanations or instructions given at any time will not be binding on the Water Authority.

8. Examination of RFP: Before submitting its Proposal, each Offeror must:

- Examine the RFP thoroughly, including, but not limited to the Scope of Services attached as Appendix A to this RFP.
- Take any necessary steps to familiarize itself with local conditions that may in any manner affect the performance of the Services.
- Familiarize itself with federal, state, and local laws, ordinances, rules and regulations affecting performance of the Services.
- Familiarize itself with the Procurement Ordinance, the Rules and other Water Authority policies, rules and ordinances which apply to the Services requested by this RFP.
- Carefully correlate its observations with the requirements of the RFP.

The submission of a Proposal will constitute an incontrovertible representation by the Offeror that it has complied with every requirement of the RFP and that the RFP is sufficient in scope and detail to indicate and convey understanding of all terms and conditions for performance of the Services.

9. Addenda: Addenda to the RFP shall be in writing, attached in the Water Authority e-procurement system, and delivered in person, by facsimile or electronically, at the discretion of the Water Authority, to all prospective Offerors that have informed the Central Purchasing Office of their desire to receive copies of all Addenda to this RFP. Copies of Addenda will be made available for inspection wherever the RFP Documents are on file for that purpose. No Addendum will be issued later than **five (5) calendar days** prior to the date for receipt of Proposals, unless deemed critical by the Chief Procurement Officer. Each Addendum shall be a part of the RFP to the same extent and as though contained in the original documents and itemized listings thereof and all Offerors shall be bound by such Addenda. Each Offeror shall ascertain, prior to submitting its Proposal, that it has received all Addenda issued and shall acknowledge such receipt in its Proposal.

10. Drafting the Proposal: Information regarding the required content of the Offerors' Proposals is contained in Part IV of this RFP, Proposal Instructions and Forms.

11. Submission of Proposals: The correct method for preparation of the Proposal package and its submission to the Water Authority is contained in Part II of this RFP. Proposals will be submitted electronically in the Water Authority eprocurement System.

12. Modification and Withdrawal of Proposals:

12.1 Offers may be modified or withdrawn only by written notice delivered to the Central Purchasing Office, provided such notice is received prior to the deadline for receipt of Proposals. The notice and the Modifications must be duly executed, prepared and submitted in the manner required for a Proposal.

12.2 After the deadline for receipt of Proposals, Proposals may be modified or withdrawn only if permitted by the Central Purchasing Office and in the best interest of the Water Authority. The decision to permit or deny modification or withdrawal of a Proposal shall be supported by a written determination which shall set forth the grounds of the decision and be placed in the specific procurement file.

12.3 If withdrawing its Proposal, an Offeror must present proper identification before its retrieval will be allowed.

13. Ad Hoc Advisory Committee: The Executive Director of the Water Authority shall name, for the purpose of evaluating the Proposals, an Ad Hoc Advisory Committee. Based on the evaluation criteria established in this RFP, the Ad Hoc Advisory Committee will subjectively score each responsive Offer in the manner determined by the Committee, including but not limited to individual scoring, by ranking, by group discussion scoring, or by consensus scoring, and shall submit to the Executive Director a list of qualified firms in the order in which they are recommended. Interviews may be conducted with all Offerors or only those responsive and responsible Offerors who are selected for the short list. After interviews, the Committee's final ranking of the Proposals shall be made a part of the procurement file with the Central Purchasing Office.

14. Proposal Review and Consideration: The Water Authority shall review the Proposals for a period of up to ninety (90) days after the hour and date specified for the receipt of Proposals to determine the successful Offeror(s). The Water Authority is not restricted to the minimum information required by the RFP Documents in evaluating Proposals and any relevant information from reliable sources may be considered. The Water Authority may also request clarification from Offerors regarding their offers, obtain additional materials or literature, and pursue other avenues of research as necessary to ensure that a thorough evaluation is conducted. The Water Authority may use any assistance deemed advisable, including Water Authority contractors and consultants to assist in the review of Proposals. Any proposal that is incomplete may be deemed non-responsive and may not be scored.

15. Qualification of Offerors: In determining the qualifications of an Offeror, the Water Authority may make such investigations it deems necessary and the Offeror shall furnish to the Water Authority all such information and data for this purpose as the Water Authority may request. The Water Authority may reject any Proposal if the evidence submitted by, or investigation of, such Offeror fails to satisfy the Water Authority that such Offeror is properly qualified to carry out the obligations of the contract resulting from this RFP.

16. Interviews and Discussions: Offerors may be asked by the Central Purchasing Office on behalf of the Committee to provide oral presentations, demonstrations or the like if such are deemed necessary to assist in the evaluation process. Discussions may be conducted with Offerors who submit Proposals, but Proposals may be accepted without such discussions. Revisions to Proposals may be permitted during the evaluation period prior to award, as clarifications, or for the purpose of obtaining interim or best and final offers.

17. Collusion: The Offeror warrants that its Proposal is submitted and entered into without any unlawful act of collusion with any other person or company engaged in the same line of business or commerce, or any other fraudulent act punishable under state or federal law. Collusion

among Offerors or the submission of more than one Proposal under different names by any company or individual with the intent to obtain an unfair advantage shall be cause for rejection of a single or multiple Proposals, without review.

18. Unfair Business Practices: Each Offeror shall execute and submit with its Proposal the form entitled, Unfair Business Practices Disclosure Form, included in this RFP. The form can be found on the Documents tab in BidSync, and may be submitted electronically or downloaded and attached with the Proposal. The awarded Contractor agrees to comply with Section 2-376 of the Procurement Ordinance and the New Mexico Unfair Practices Act, Section 57-12-1 et seq. NMSA 1978. Additional information is provided in the General Terms and Conditions contained in this RFP.

19. Penalties for Criminal Activities: Any business or person that willfully violates any provision of the Procurement Ordinance contrary to the New Mexico Criminal Code may be referred to the appropriate authorities for felony or misdemeanor prosecution. In addition, civil penalties may apply.

20. Rejection of Proposals and Cancellation: The Water Authority may cancel this RFP or reject any or all Proposals in whole or in part when it is in the best interest of the Water Authority. If a Proposal is rejected, written notice of the rejection, together with the reasons therefor, shall be sent to the Offeror. Offerors whose Proposals are rejected for any reason shall not be entitled to recover damages of any nature against the Water Authority resulting from the rejection. A determination containing the reasons for cancellation shall be made part of the procurement file.

21. Minor Technical Irregularities: The Central Purchasing Office may waive informalities and minor technical irregularities in Offers received if in the best interest of the Water Authority. Examples include, but are not limited to, the failure of an apparent successful Offeror to: (i) return the number of signed Proposals required by the solicitation; (ii) sign (or improperly sign) the Proposal, but only if the unsigned Proposal is accompanied by other material indicating the Offeror's intent to be bound; or (iii) acknowledge receipt of an Addendum to the RFP, but only if it is clear from the Proposal that the apparent successful Offeror(s) received the Addendum and intended to be bound by its terms.

22. Award of Contract:

22.1 *Multiple Awards.* The Water Authority reserves the right to make multiple awards as a result of the RFP if doing so may be advantageous to the Water Authority.

22.2 *Negotiation of Terms.* Prior to award of a contract, the Water Authority may conduct negotiation of all terms, including price, with one or more Offerors. The contents of any Proposal shall not be disclosed so as to be available to competing Offerors during the negotiation process and prior to award. Award in this context means the final required signature on the contract(s) resulting from this RFP.

22.3 *Notice of Award.* If a contract is awarded, the Water Authority will give the apparent successful Offeror(s) a Notice of Award with reasonable promptness and within the time allotted in these RFP Documents for consideration and review of Proposals, unless the Offeror(s) and the Water Authority agree in writing to extend the period specified.

22.4 *Award of Contract.* Award of contract occurs in most cases when a written agreement resulting from the RFP is signed by the Water Authority Executive Director, but if a written agreement is not signed, may occur when a Notice of Award, purchase order or other evidence of acceptance by the Water Authority is provided to an Offeror. A Recommendation of Award does not constitute award of contract.

22.4 *Basis of Award.* All contracts awarded under this RFP, whether a single contract or multiple contracts, will be awarded to responsible Offerors whose Proposals are determined to be in the best interest of the Water Authority.

22.5 *Non-exclusivity of Contracts.* The Water Authority reserves the right to contract with other firms and individuals to obtain similar professional technical services outside of this RFP.

23. Contract: Terms and conditions of the contract(s) to be entered into as a result of this RFP are set out in the General Terms and Conditions contained in this RFP. The contract(s) shall consist of the signed Agreement, all other RFP Documents and the Offeror's Proposal, as well as the purchase order and any Exhibits, forms or other documents attached to or referenced in these documents. By submitting a Proposal, an Offeror agrees to accept and be bound by all the terms and conditions of the General Terms and Conditions set out in this RFP. In order to be considered, exceptions, if any, must be submitted in writing with the Offeror's Proposal.

24. Execution of Agreement and Delivery: Upon notification by the Water Authority, the awarded Offeror (the "Contractor") must sign and deliver the Agreement and any and all contract documents prepared by the Water Authority, and provide the following:

- A completed and executed Form W-9, Request for Taxpayer Identification Number and Certification; and
- Certificates of insurance as required of this RFP.

Failure of the Contractor to deliver these documents within a reasonable time after notification shall entitle the Water Authority to reject the Contractor's Proposal and rescind the Notice of Award. In such event, the Water Authority shall be entitled to cancel the RFP, resolicit, or award to the next highest-scoring responsive and responsible Offeror.

25. Debarred Contractors: The Proposal of an Offeror that has been debarred pursuant to the procedures set forth in the Procurement Ordinance or the Rules, or is suspended, debarred or ineligible from entering into contracts with the federal government, or any agency or local public body of the State of New Mexico, or in receipt of a notice of proposed debarment from any federal agency or agency or local public body of the State of New Mexico, shall not be considered for award of a contract during the period for which the Offeror is suspended, debarred or declared ineligible. By submitting its Proposal, the Offeror certifies that it has not been so suspended, debarred or declared ineligible and that if notice of said suspension, debarment, or ineligibility is received by the Offeror, it will notify the Water Authority immediately.

26. Ethical Conduct: By submitting its Proposal, the Offeror warrants that it presently has no interest and shall not acquire any interest, direct or indirect, which would conflict in any manner or degree with the performance of Services required under the Agreement resulting from this RFP. The Offeror certifies that the requirements of the Procurement Ordinance and Rules as well as other Water Authority and State of New Mexico laws, ordinances, rules and regulations, policies, procedures, and administrative instructions governing ethical conduct, including, but not limited to, the Water Authority Code of Conduct, the New Mexico Governmental Conduct Act, Sections 10-16-1 through 10-16-18, NMSA 1978, and the New Mexico criminal statutes prohibiting bribes, gratuities and kickbacks, Sections 30-41-1 through 30-41-3, NMSA 1978, have been followed.

Each Offeror shall execute and submit with its Proposal the Campaign Contribution Disclosure Form included in this RFP, which must be signed and submitted with Offeror's proposal whether or not an applicable contribution has been made. The form can be found on the Documents tab in BidSync, and may be submitted electronically or downloaded and attached with the Proposal.

27. Proprietary Data: The file relating to this RFP, including the Proposals submitted by

Offerors, shall be open to public inspection after the contract(s) awarded as a result of this RFP has been signed by the Executive Director, or his designee. An Offeror may designate trade secrets or other proprietary data in its Proposal to be confidential by separating that material from the Offeror's Proposal, placing it in a sealed envelope and marking it as "Confidential". Pricing and terms of payment should not be so designated. The Water Authority will endeavor to restrict distribution of material separated, placed in a sealed envelope and designated as "Confidential" to only those individuals involved in the review and analysis of the Proposals. If a request for inspection of records under the New Mexico Inspection of Public Records Act, Sections 14-2-1 et seq, NMSA 1978 (the "Act"), is received however, which request encompasses such materials, the Offeror will be notified. It is the responsibility of the Offeror to take whatever action it deems necessary to assert and defend the confidentiality of the materials provided in its Proposal. If no protective action is taken to prevent the Water Authority from fulfilling the request submitted in accordance with the Act, the Water Authority will provide the entire response to the requestor.

28. Preferences Available: Proposals in response to this RFP may receive a State Resident Business Preference or State Resident Veteran Business Preference, and County Local Business and Small Business Preferences, and a Pay Equity Preference, if Offeror is so qualified. The Preference Eligibility Application form is provided to assist the Offeror in providing the correct documentation required for all applicable preferences. The form can be found on the Documents tab in BidSync. The Offeror should review the form and MUST submit the required documentation with its Proposal in order to obtain a preference. The completed and signed Preference Eligibility Application should be submitted electronically or downloaded and attached with the Proposal but may be submitted prior to award.

28.1 *State Preferences.*

- Resident Business Preference. To qualify for this preference of five percent (5%), the Offeror must submit with its Proposal a copy of its Resident Business Certificate issued by the New Mexico Taxation and Revenue Department pursuant to Section 13-1-22 NMSA 1978.
- Resident Veteran Business Preference. To qualify for this preference of ten percent (10%), the Offeror must submit with its Proposal a copy of its Resident Business Certificate issued by the New Mexico Taxation and Revenue Department pursuant to Section 13-1-22 NMSA 1978.

When a joint Proposal is submitted by a combination of resident, resident veteran, or nonresident businesses, the preference provided shall be calculated in proportion to the percentage of the Services provided under the contract resulting from this RFP which will be performed by each business, as specified in the joint Proposal.

An Offeror shall not be awarded both a Resident Business Preference and a Resident Veteran Business Preference.

In the event an Offeror qualifies for a State preference for a Resident Business or Resident Veteran Business and submits a qualifying Proposal, the Offeror shall receive the full statutory preference applied in the manner set forth in Section 13-1-21 NMSA 1978.

28.2 *County Preferences.*

- Local Business Preference. To qualify for this preference of five percent (5%), the Offeror must hold and submit with its Proposal a valid Resident Business or Resident Veteran Business Certificate issued by the New Mexico Taxation and Revenue Department pursuant to 13-1-22, NMSA 1978; and maintain an office and place of business in

Bernalillo County, which is staffed and open to the public on a regular basis. If necessary, the Central Purchasing Office may seek additional information or proof to verify eligibility for the Local Business Preference.

- **Small Business Preference.** To qualify for this preference of five percent (5%), the Offeror must hold and submit with its Proposal a valid Resident Business or Resident Veteran Business Certificate issued by the New Mexico Taxation and Revenue Department pursuant to 13-1-22, NMSA 1978; must maintain an office and place of business in Bernalillo County, which is staffed and open to the public on a regular basis, and so verified by the County; and must employ an average of fewer than fifty (50) full-time employees in a calendar year, which number shall be verified by submitting with its Proposal an affidavit from a Certified Public Accountant.
- **Pay Equity Preference.** To qualify for this preference of five percent (5%), an Offeror must maintain a zero percent (0%) deviation between the salaries it pays to men and the salaries it pays to women for comparable positions. For purposes of this preference, comparable positions are those listed in the Job Classification Guide 2010 (as may be updated and amended from time to time) published by the federal Equal Employment Opportunity Commission. To be eligible for the preference, the Offeror must, at the time of submittal, hold a valid Pay Equity Business Certificate issued by the City of Albuquerque. Application for certification can be done pursuant to the Pay Equity Documentation instructions herein.

If necessary, the Central Purchasing Office may seek additional information or proof to verify eligibility for the County Preferences.

28.3 *Limitations.*

- These Preferences will not be applied if the valid Certificates, Certifications and Forms required are not provided **with** the Offeror's Proposal.
- Only the Offeror submitting a Proposal and not a subcontractor may qualify for a preference.
- The State Preferences shall be applied before the County Preferences.
- The total amount of all preferences awarded to a single Proposal shall not exceed fifteen percent (15%), with the limit on State preferences as set forth under the New Mexico State Procurement Code.
- These preferences shall not apply to RFPs for the expenditure of federal funds.

29. Protest: Any Offeror who is aggrieved in connection with the RFP or the resulting award of a contract may protest to the Chief Procurement Officer within fifteen (15) calendar days after knowledge of the facts or occurrences giving rise to the protest.

29.1 The protest must be submitted in written form and must be legible. Protests may be hand-delivered or mailed. Facsimile, telephonic, telegraphic or electronic protests will not be accepted. The protest shall be addressed as follows:

Albuquerque Bernalillo County Water Utility Authority
Attn: Chief Procurement Officer
PO Box 568
Albuquerque, New Mexico 87103
RFP Number
PROTEST

29.2 The protest shall contain at a minimum the following;

- The name and address of the protesting party;
- The number of the competitive solicitation;
- A clear statement of the reason(s) for the protest detailing the provisions believed to have been violated;
- Details concerning the facts which support the protest;
- A statement of when knowledge of the facts or occurrences giving rise to the protest occurred;
- Attachments of any written evidence available to substantiate the claims of the protest; and
- A statement specifying the ruling requested.

29.3 The Chief Procurement Officer shall promptly issue a determination relating to the protest which shall state the reasons for the action taken and inform the protestant of the right to judicial review of the determination pursuant to the Procurement Ordinance. The written determination shall be sent via certified mail to the protestant and otherwise provided via standard mail or electronically to other Offerors involved in the procurement.

29.4 The protestant shall have thirty (30) days from the date the protest determination is filed in the records of the Water Authority to file a Notice of Appeal with the Second Judicial District Court in Albuquerque, New Mexico, in accordance with Section 39-3-1.1 NMSA 1978.

29.5 The Chief Procurement Officer shall have the authority to take any action reasonably necessary to resolve a protest of an aggrieved Offeror in accordance with the Procurement Ordinance.

30. Pay Equity Documentation: All Offers shall include with their Offer, a Pay Equity Reporting Form, or valid Pay Equity Business Certificate, which can be accessed at;

Offerors who are located out-of-state or have no facilities and no employees working in the State of New Mexico are not required to report pay equity data, but must verify their out-of-state status on the Pay Equity Reporting Form. Failure to provide a Pay Equity Reporting Form at the time of submission shall result in the Offer being deemed nonresponsive. The Central Purchasing Office may allow for a revised Pay Equity Reporting Form to be submitted by the Offeror if; (i) the originally submitted form requires a technical change; or (ii) the Offer fails to include a Pay Equity Reporting Form at the time of submission, provided that the Offeror submits the Pay Equity Reporting Form within the time allowed by the Central Purchasing Office.

NOTE: THE PAY EQUITY REPORTING FORM REQUIRED BY THIS PROVISION IS NOT A PAY EQUITY BUSINESS CERTIFICATE, NOR DOES IT QUALIFY AN OFFEROR FOR THE PAY EQUITY PREFERENCE. TO OBTAIN A PAY EQUITY BUSINESS CERTIFICATE AND QUALIFY FOR THE PREFERENCE, PLEASE CONTACT THE CITY OF ALBUQUERQUE PAY EQUITY TASK FORCE BY TELEPHONE: (505) 768-3512 OR EMAIL: oei@cabq.gov.

PART II SPECIAL INSTRUCTIONS

1. Submission of Proposals: The Offeror's sealed Proposal must be submitted electronically through the eprocurement system:

1.1 *Electronic Response.* Unless otherwise specified, the RFP must be responded to electronically by submitting the required information and uploading any required documents. Instructions may also be in a document attached in the eProcurement system. No other method of delivery will be permitted unless an exception has been approved in writing by the Central Purchasing Office at least five (5) calendar days prior to the deadline for receipt of Proposals.

- The individual submitting the Proposal certifies that he/she is authorized to submit the electronic response for the Offeror. The Offeror understands that it has an obligation to, and accepts responsibility for, safeguarding the vendor user identification ("ID") and password against unauthorized use and that the Water Authority has the right to rely on the authenticity of any Proposals submitted through the vendor user ID and password. The Offeror understands that a Proposal submitted electronically has the same force and effect as an originally signed document and that the Offeror is bound by any Proposal submitted electronically through the vendor user ID and password.
- The Offeror certifies that it has provided accurate information in registering for access to the eProcurement system. In the event that the Central Purchasing Office finds that an Offeror has provided inaccurate registration information allowing the Offeror an unfair advantage, the Offeror must correct the information upon receipt of written notification from the Water Authority. If the change is not made within fifteen (15) calendar days of the date of notification, the Central Purchasing Office may remove the Offeror from the Water Authority's vendor database and the Offeror will be unable to participate in further solicitations until the information is corrected.

1.2 *Proposal Preparation.* In drafting a Proposal, the format provided in Part IV should be followed. Failure to adhere to this outline format, or failure to provide all items listed under each topic, may result in lower evaluation scores by the Ad Hoc Advisory Committee members and any proposal that is incomplete may be deemed non-responsive and may not be scored. Provide any written information requested in sufficient detail but without unnecessary material. Have the signature page(s) signed by an individual authorized to sign on behalf of the business submitting the proposal.

1.2.1 **SECTION I Proposal Form:** Provide company information. Read and agree to statements. Acknowledge receipt of addenda.

1.2.2 **SECTION II Technical Information Required:** Provide the required information for all items, in the order requested, using separate numbered paragraphs or sections for each numbered item.

1.2.3 **SECTION III Cost Information Required:** Provide the required information for all items. Use separate numbered paragraphs or sections to provide any written information requested in sufficient detail but without including unnecessary material.

2. Term of Agreement: The term of the contract resulting from this RFP (the "Agreement") shall commence on the date of final execution by the Water Authority and is intended to continue for a period of 4 years.

This term may be extended by mutual written agreement of the parties up to the maximum number of years allowed by the Procurement Ordinance for contracts of this type.

3. Insurance: Offeror shall not commence any work under the awarded Agreement until the insurances required have been obtained and the proper certificates, riders or endorsements (or policies) have been submitted to Water Authority.

PART III

GENERAL TERMS AND CONDITIONS

P2022000011 TIRE AND TIRE SERVICES

1. Contract Documents and Precedence: A contract resulting from the RFP (hereafter the “Contract”) shall consist of the following (the “Contract Documents”) and shall have precedence and be applied in the following order: the purchase order and any terms and conditions written into, referenced and incorporated in or attached to the purchase order, the RFP Documents, and the Offer of the successful Offeror (the “Contractor”). Any exceptions taken to the RFP Documents in the Offer which have not been written into the purchase order, have not been accepted by the Water Authority and are not part of the Contract. The RFP Documents shall have precedence in the order specified in Part I, Section 5 of the RFP.

2. Contract Price, Payments and Title: The Contract Price and Payment Terms for a contract resulting from the RF shall be set out in a document referenced in or attached to the purchase order issued by the Water Authority, unless otherwise provided in the Specifications.

2.1 Invoices and Payments. The Contractor shall submit an accurate invoice for each purchase. Invoices shall refer to the purchase order Number and the Blanket Release (“BR”) or Blanket Encumbrance (“BE”) Number, if applicable, and shall be itemized unless otherwise specified in the RFP.

Applicable taxes shall be stated separately and will be paid by the Water Authority at current rates. Applicable taxes shall be shown as a separate amount on each billing or request for payment made under the Contract and may not be billed more than sixty (60) days after providing the goods and services to which the taxes apply.

Invoices are to be emailed to: vendorinvoices@abcwua.org with a copy to the applicable department.

Invoices mailed or provided to any other address will result in a delay in making payment. The Contractor is encouraged to inquire if payments due are not received within thirty (30) calendar days after delivery of goods or completion of the services under the Contract and submittal of invoice, by contacting the Accounting Division at (505) 289-3008.

Unless otherwise stated in the Specifications, the Contractor shall not receive any compensation until all goods have been delivered and the services have been completed, final inspection has been made, the goods and services have been accepted by an authorized representative of the Water Authority and complete and correct invoices have been received by the Water Authority in accordance with the invoicing process detailed herein. Progress payments will not be made to the Contractor unless otherwise specified in the RFP.

2.2 Title. Title to all goods and services provided under the Contract shall pass to the Water Authority at the time of payment, free and clear of all liens, claims, security interests and encumbrances.

3. Personnel, Subcontractors, and Suppliers:

The Contractor represents that it has, or will secure at its own expense, all personnel required to perform the Contract. Such personnel shall not be employees of or have any contractual relationships with the Water Authority. All the work required hereunder will be performed by the Contractor or under its supervision and all personnel engaged in the work shall be fully qualified and shall be authorized or permitted under state and local law to perform the work. None of the work described in the RFP shall be subcontracted without the prior written approval of the Water Authority. Any work subcontracted hereunder shall be specified by written contract or agreement and shall be subject to each provision of the Contract.

4. Delivery and Acceptance:

4.1 No Delivery before Purchase Order is Issued. The Contractor shall not deliver any goods or commence services prior to the issuance of a purchase order or other notice to proceed issued by the Water Authority Central Purchasing Office.

4.2 Cancellation for Non-Delivery. The Water Authority reserves the right to cancel any order not delivered by a guaranteed date stipulated in the Contract without liability on the Water Authority's part.

4.3 Acceptance of Delivery. Acceptance by the Water Authority of any delivery shall not relieve the Contractor of any guarantee or warranty, expressed or implied. Such acceptance of delivery shall not be considered an acceptance of goods or services not in accordance with the Specifications or the Contract Documents. Such acceptance of delivery shall not waive the Water Authority's right to require replacement of defective goods or correction of inadequate services.

5. Quality of Materials:

5.1 New Material. All goods, materials, supplies, equipment, vehicles, and the like provided under the Contract shall be new, the latest in production and manufactured within the last twelve (12) months (computed from the date and time of issuance of a BR) unless otherwise indicated in the Specifications. This does not apply to equipment or vehicles used by the Contractor to provide the required goods and services.

5.2 Inspection of Materials. The Water Authority reserves the right to inspect materials provided by the Contractor to determine their quality, fitness and suitability. Inspection of these materials may be conducted whenever the Water Authority considers it necessary. All goods and services found inferior to the quality specified in the RFP, deficient or incorrect in weight, measurement, workmanship, handicraft or otherwise, may be rejected as a whole or in part and then shall be removed by the Contractor at the Contractor's own risk and expense promptly after notice of rejection. The Contractor shall assume responsibility for taking the necessary action to correct or replace the rejected items or services within the time frame specified in the notice of rejection.

5.3 Right to Inspect Plant. The Water Authority's Chief Procurement Officer, or designee, may inspect, at any reasonable time, the Contractor's or any subcontractor's plant or place of business related to the performance of the Contract.

5.4 *Warranties.* All goods and materials furnished by the Contractor shall be free from defects and imperfections and workmanship shall be in accord with the best industry standards and practices. All goods, materials and workmanship shall be subject to the approval of the Water Authority.

Goods and materials furnished by the Contractor shall be accompanied by the manufacturer's written warranty against defects in quality and craftsmanship and covered by the most favorable commercial warranties the Contractor gives to any customer for such items. Further, the Contractor agrees that the rights and remedies provided in such warranties shall extend to the Water Authority and are in addition to and do not limit any rights afforded to the Water Authority by any other provision of the RFP.

THE CONTRACTOR AGREES NOT TO DISCLAIM WARRANTIES OF FITNESS FOR A PARTICULAR PURPOSE OR MERCHANTABILITY. Warranties shall become effective at the time of acceptance of the goods and services provided.

The Contractor guarantees that the goods and services supplied meet the performance required in the Specifications and elsewhere in the RFP and agrees to make such changes, adjustments or replacements as immediately necessary in order to meet the requirements at no cost to the Water Authority. If defects or specification failures are discovered, the Water Authority shall have the right, notwithstanding acceptance and payment, to require the noncompliant unit or item to be properly furnished in accordance with the Specifications and applicable drawings at the cost and expense of the Contractor or the Contractor's surety.

6. Site Conditions:

6.1 *Removal of Debris and Cleaning the Area.* The Contractor shall, during the progress of any work required under the RFP, remove and dispose of all debris and keep the work premises clean and safe. When the work is complete, the Contractor shall remove all construction equipment and surplus materials (except materials that are to remain the property of the Water Authority as provided in the Specifications) and leave the premises in a clean condition satisfactory to the Water Authority.

6.2 *Working Conditions.* The Water Authority is not responsible for obstacles, unfavorable conditions, or hazards, which may be encountered by the Contractor in performing the Contract, both above and below ground. These conditions are part of the risk and responsibility of the Contractor.

6.3 *Risks.* All risks of deterioration, destruction, and loss of materials and equipment stored at the site of the work required under the Contract shall be borne by the Contractor.

6.4 *Responsibility for Damage.* The Contractor shall be responsible for any damage caused during removal or installation services or at any time during the performance of the Contract. Damage shall be reported immediately to the designated Water Authority representative.

7. Indemnity:

7.1 *General Indemnity.* The Contractor expressly agrees to defend, indemnify and save harmless the Water Authority and its officers, agents and employees from and against any and all

claims, suits, demands, actions, or proceedings of every nature and description brought because of any injury or damage received or sustained by any person, persons, or property arising out of the Contractor's performance of the Contract or by reason of any act or omission, neglect or misconduct of the Contractor, or its agents, employees or subcontractors or the agents or employees of any subcontractor of the Contractor. The indemnity required herein shall not be limited by reason of the specification of any particular insurance coverage.

7.2 *Patent Indemnity.* If any item furnished pursuant to the Contract shall be covered by any patent, copyright, or application for patent or copyright, the Contractor shall defend, indemnify and save harmless the Water Authority from any and all loss, cost or expense or any and all claims, suits, or judgments as a result of the use of such item in violation of rights under such patent, copyright, or application for patent or copyright.

8. Records and Audits:

8.1 *Establishment and Maintenance of Records.* Records shall be maintained by the Contractor in accordance with applicable law and requirements prescribed by the Water Authority with respect to all matters covered by the Contract. Except as otherwise authorized by the Water Authority, such records shall be maintained for a period of six (6) years after receipt of final payment under the Contract.

8.2 *Audits.* At any time during normal business hours and as often as the Water Authority may deem necessary, there shall be made available to the Water Authority for examination all of the Contractor's records with respect to all matters covered by the Contract. The Contractor shall permit the Water Authority to audit, examine, and make excerpts or transcripts from such records, and to make audits of all contracts, invoices, materials, payrolls, records of personnel, conditions of employment and other data relating to all matters covered by the Contract.

9. Ethical Conduct: The Contractor warrants that it will perform the Contract in compliance with the Ethical Conduct provisions (§2-390) and Unfair Business Practices provisions (§2-376) of the Water Authority Procurement Ordinance and Rules (Section 37), the Water Authority Code of Conduct, Sections 10-16-1 through 10-16-18, NMSA 1978, the New Mexico criminal statutes prohibiting bribes, gratuities and kickbacks, Sections 30-41-1 through 30-41-3, and any other Water Authority or New Mexico laws, ordinances, rules and regulations, policies, procedures and administrative instructions applicable to ethical conduct. The Contractor warrants that it presently has no interest and will not acquire any interest, direct or indirect, which would conflict in any manner or degree with the performance of the Contract.

10. Changes:

10.1 *Contract Changes.* In no case shall a Contract be changed without the prior written approval of the Chief Procurement Officer.

10.2 *Increase of Quantities:* The Water Authority reserves the right to increase the quantity of the goods and services to be provided under the terms of the Contract, at the same prices, with the consent of the Contractor.

10.3 *Decrease of Quantities.* The Water Authority reserves the right to decrease the quantity of goods and services to be provided under the terms of the Contract. However, the Contractor shall be offered an opportunity to cancel the portion of the Contract affected by such a decrease if the

Contractor is not able to meet the contracted prices by delivering the decreased amount. This opportunity shall not be afforded the Contractor if the Contract was originally awarded based on estimated quantities.

10.4 *Debarment/Cancellation of Contract.* Upon receipt of notice of debarment of the Contractor, or other ineligibility of the Contractor to receive funds from any agency of the federal government, the State of New Mexico, or any local public body of the State, the Water Authority shall have the right to cancel the Contract with the Contractor for cause, as provided below in Section 15.

10.5 *Additions/Deletions of Items.* The Water Authority reserves the right to add ancillary items or services or delete such items or services specified in the Contract as requirements change during the term of the Contract. Items may only be added or deleted by written approval from the Chief Procurement Officer or designee.

Prices and/or discounts for such additional items or services will be mutually agreed to by the Water Authority and the Contractor either:

- Under the price structure of the Contract, to include, but not by way of limitation, price margin above Contractor cost; or
- By quotation from the Contractor, which quotation is validated to be competitive by solicitation of comparable quotes within the market if necessary; or
- As otherwise determined by the Chief Procurement Officer.

An amended Contract (by purchase order or otherwise) will be issued for each addition or deletion, prior to the change taking effect.

The Water Authority reserves the right to award these ancillary items to the primary Contractor, another vendor based on the lowest price quoted, or to acquire the items through a separate solicitation.

10.6 *Price Escalation.* A request for escalation of Contract pricing may be made under the following conditions:

- Offered prices must be firm for a least ninety (90) consecutive calendar days after written notification of the effective date of a Contract.
- The Contractor shall provide written notice to the Water Authority of any requested price increases.
- All requests for price increases shall be accompanied by: (1) a letter from the Contractor's supplier certifying the increases in cost to the Contractor; or (2) evidence of verifiable market conditions resulting in increased costs such as mandated labor rate increases and significant fuel or energy cost increases.
- All revisions to Contract pricing shall become effective when they are approved by the Water Authority.
- As provided in Section 11.2, *Audits*, above, all supplier invoices for the offered items shall be subject to auditing by the Water Authority and furnished without delay upon request.

- The Water Authority reserves the right to cancel a Contract and solicit a new contract if a requested price escalation is unacceptable to the Water Authority. Cancellation of the Contract shall not affect any outstanding orders.
- All approved price changes resulting from this escalation clause shall be firm for a minimum of ninety (90) calendar days after approval by the Water Authority.
- Contractor shall notify the Water Authority within seven (7) calendar days of subsequent price de-escalations from its supplier or cost reductions in areas where pricing increases were previously implemented. The Contractor will reduce its pricing to the Water Authority immediately to pass on such de-escalations and reductions unless otherwise agreed to by the parties.
- The Water Authority reserves the right to approve pricing increases requested by the Contractor which may be requested for reasons other than an increased cost to the Contractor from an outside source, if it is in the best interest of the Water Authority.
- All approvals required by this subsection must be in writing by the Water Authority Chief Procurement Officer.

11. Force Majeure: Neither the Contractor nor the Water Authority shall be responsible for failure to fulfill its obligations due to causes beyond its reasonable control, including without limitation, acts or omissions of government not directly related to this Contract, acts or omissions of a military authority, acts of God, material shortages, transportation delays, fires, floods, labor disturbances, riots, wars, terrorist acts, or any other causes, directly or indirectly beyond the reasonable control of the nonperforming party, so long as such party is using its best efforts to remedy such failure or delays.

12. Termination for Cause: If, through any cause, the Contractor fails to fulfill the Contractor's obligations under the Contract in a timely and proper manner, or if the Contractor violates any of the covenants, agreements or stipulations of the Contract, the Water Authority shall notify the Contractor of such violations in writing and allow the Contractor a reasonable time, set out in the notice, to correct the default. If the default is not corrected within the specified time period the Water Authority shall have the right to cancel the Contract and any or all other current contracts with the Contractor, and, if applicable, to purchase the required goods and services from another source or sources. The Water Authority shall provide written notice to the Contractor specifying the effective date of cancellation which may be contained in the notice of default.

If the Contract is cancelled, the Contractor shall not be relieved of liability to the Water Authority for damages caused by its breach of the Contract. The Water Authority reserves the right to recover such damages, including but not limited to any excess cost incurred in having to purchase Contract goods and services from other sources, by a deduction from an unpaid balance due to the Contractor, collection against a performance or labor and materials payment bond, a combination of these remedies, or any other legal method available. In addition, the Contractor may be removed from the Central Purchasing Office vendor list or determined to be ineligible to respond to future solicitations, as being not responsible.

13. Termination for Convenience: The Water Authority may terminate the Contract at any time by giving at least thirty (30) consecutive calendar days' notice in writing of such termination to the Contractor. In such event, the Contractor shall be paid under the terms of the Contract for all goods and services provided to and accepted by the Water Authority, if ordered or accepted by the Water Authority prior to the effective date of termination.

14. Termination for Lack of Appropriations: Funding for the Contract has been appropriated by the Water Authority Board for the Water Authority's current fiscal year. Notwithstanding any other provisions in the Contract, its continuation beyond the end of the fiscal year is contingent on the Water Authority Board making the appropriations necessary to fund the Contract. If sufficient appropriations are not made the Contract may be terminated at the end of the Water Authority's then current fiscal year upon written notice given by the Water Authority to the Contractor. Such termination shall not constitute a default. All payment obligations of the Water Authority and all of its interest in the Contract will cease upon date of termination. The Water Authority's decision as to whether sufficient appropriations are available shall be accepted by the Contractor and shall be final.

15. Miscellaneous:

15.1 *Assignment, Transfer and Subcontracting.* The Contractor shall not assign, transfer or subcontract any portion of the Contract without the express written consent of the Water Authority's Chief Procurement Officer. Any work subcontracted hereunder shall be specified by written contract or agreement and shall be subject to each provision of the Contract.

15.2 *Construction and Severability.* If any part of the Contract is held to be invalid or unenforceable, such holding will not affect the validity or enforceability of any other part of the Contract so long as the remainder is reasonably capable of completion.

15.3 *Compliance with Laws.* The Contractor shall, in performance of the Contract, fully comply with all applicable federal, state, or local laws, rules and regulations, including, but not limited to the New Mexico Human Rights Act, Title VII of the federal Civil Rights Act of 1964, the Americans with Disabilities Act of 1990, and all federal, State and local statutes, regulations and executive orders relating to civil rights.

15.4 *Enforcement.* The Contractor agrees to pay to the Water Authority all costs and expenses including reasonable attorney's fees incurred by the Water Authority in exercising any of its rights or remedies in connection with the enforcement of the Contract.

15.5 *Entire Agreement.* The Contract Documents comprise the entire agreement between the parties and supersedes any and all other agreements or understandings, oral or written, whether previous to the execution hereof or contemporaneous herewith.

15.6 *Governing Law/Venue.* The Contract is governed by the laws of the State of New Mexico. The parties agree that the state and federal courts sitting in Bernalillo County, New Mexico will have exclusive jurisdiction over any claim arising out of the Contract or this procurement and each party consents to the exclusive jurisdiction of such courts.

16. Insurance: The Contractor shall procure and maintain at its expense until final payment by the Water Authority for Services covered by the awarded Contract, insurance in the kinds and amounts hereinafter provided with insurance companies authorized to do business in the State of New Mexico, covering all operations under this Contract, whether performed by it or its agents. Before commencing the Services and on the renewal of all coverages, the Contractor shall furnish to the Water Authority a certificate or certificates in form satisfactory to the Water Authority showing that it has complied with this Section. All certificates of insurance shall provide that thirty (30) days written notice be given to the Risk Manager, Albuquerque Bernalillo County Water Utility

Authority, P.O. Box 568, Albuquerque, New Mexico 87103, before a policy is cancelled, materially changed, or not renewed. Various types of required insurance may be written in one or more policies. With respect to all coverages required other than professional liability, if required, or workers' compensation, the Water Authority shall be named an additional insured. All coverages afforded shall be primary with respect to operations provided. Kinds and amounts of insurance required are as follows:

Commercial General Liability Insurance. A commercial general liability insurance policy with combined limits of liability for bodily injury or property damage as follows:

\$1,000,000 Per Occurrence

\$1,000,000 Policy Aggregate

\$1,000,000 Products Liability/Completed Operations

\$1,000,000 Personal and Advertising Injury

\$ 50,000 Fire - Legal

\$ 5,000 Medical Payments

Said policy of insurance must include coverage for all operations performed for the Water Authority by the Contractor and contractual liability coverage shall specifically insure the hold harmless provisions of this Contract.

Automobile Liability Insurance. An automobile liability policy with liability limits in amounts not less than \$1,000,000 combined single limit of liability for bodily injury, including death, and property damage in any one occurrence. Said policy of insurance must include coverage for the use of all owned, non-owned, hired automobiles, vehicles and other equipment both on and off work.

Workers' Compensation Insurance. Workers' Compensation Insurance for its employees in accordance with the provisions of the Workers' Compensation Act of the State of New Mexico (the "Act"). If the Contractor has determined that it is not subject to the Act, the Contractor will submit a signed statement to that effect. The Contractor will notify the Water Authority and comply with the Act if it becomes subject to the Act during the term of the contract resulting from this RFP.

If, during the term of this Contract, the Water Authority requires the Contractor to increase the maximum limits of any insurance required herein, an appropriate adjustment in the Contractor's compensation will be made.

**PART IV
PROPOSAL FORMS**

**REQUEST FOR PROPOSALS NUMBER: P2022000011
REQUEST FOR PROPOSALS NAME: TIRE AND TIRE SERVICES**

GENERAL INFORMATION FORM

Provide the following information in the order in which it is requested. Attach relevant documentation.

Offerors must complete and submit forms included herein.

TO THE ALBUQUERQUE BERNALILLO COUNTY WATER UTILITY AUTHORITY:

I. GENERAL STATEMENTS.

(1) This Proposal is submitted by the undersigned Offeror in response to the above-cited RFP. The Offeror is more particularly identified as follows:

Name Southern Tire Mart, LLC

Address 3501 Fourth ST NEW, Albuquerque, NM 87107

Principal Office 800 Highway 98, Columbia, MS 39429

Type of Services Provided: New tires, tire services and retread tires

Corporation (if corporation, where incorporated) _____

Partnership Sole Proprietorship Joint Venture

Other LLC

NM Secretary of State Business ID Number: 2021-363125

Name and Email of individuals authorized to bind the firm:

Name: Richard Conwill

Email: richard.conwill@stmtires.com

Name: _____

Email: _____

Name: _____

Email: _____

(2) The Offeror agrees as follows:

- To comply with all laws, rules, and regulations referenced in this RFP;
- To accept the General Terms and Conditions contained in this RFP; and
- To provide the insurance, if applicable required in the RFP.

(3) The Offeror acknowledges receipt of the following Addenda:

Addendum No. 1 Dated: 5/11/22 Addendum No. 2 Dated: 5/18/22

Addendum No. _____ Dated: _____ Addendum No. _____ Dated: _____

II. TECHNICAL INFORMATION REQUIRED

Evaluation Criteria: The following contents must be provided as a part of the Offeror's submission. The associated general criteria, not listed in order of significance, will be used by the Ad Hoc Advisory Committee in recommending contract award to the Executive Director. The proposal factors will be rated on a scale of **0-1000 points** with weight relationships as stated below.

1. **300 points** -- Personnel & Company Experience and capability of facility & tools and equipment availability; including adequacy of proposed project management to be utilized by the Offeror, Offeror's past performance on projects of similar scope and size.
2. **300 points** -- Proposed Approach to Tasks, including availability of staff and resources, and the Offeror's general approach and detailed plans to meet the objectives of each task or activity of the Scope of Services.
3. **200 points** -- Capability of billing tracing and documentation of services, as well as warranty coverage.
4. **200 points** -- Cost Proposal – The costs proposed by the Offeror to perform the tasks listed in the Scope of Services.

III. PRICING PROPOSAL

Percentage of discount from current manufacturers' published catalogue list price or markup over cost for parts/supplies used by the Contractor during repairs or purchased directly by the Water Authority: *****OTR/Off the road**

Tires/Parts markup over cost or discount from list

IV. QUESTIONNAIRE

Provide the following information in the order in which it is requested. Attach all supporting relevant documentation. Use additional sheets if necessary.

1. Provide the duration of consecutive years your company has provided tires and related services:

Southern Tire Mart is the largest commercial truck tire dealer as well as the largest Retreader in North America and has been for several years running. We have been retreading and selling tires since 1973 with 16 retread plants.

2. Provide information regarding the resources you have available to accommodate and secure vehicles while in your company's possession. Specifically, Offeror must provide information regarding quantity and type of service vehicles available:

STM Albuquerque has eight service trucks as of 5/24/22: five F350 fleet trucks, two M2 Freightliner trucks with stick boom, and one Freightliner M2 flatbed with hand boom.

3. Provide the number of technicians available to perform service as well as standard training and basic staff experience that should be expected by the Water Authority:

As of 5/24/2022, STM Albuquerque has 18 employees that may perform the duties of a tire technician either at STM or offsite. There are 13 dedicated tire techs, as well as five members of the sales and management team with the experience and qualifications necessary to safely and effectively perform those duties. STM Albuquerque has all technicians trained (and tested) by TIA certified instructors within 90 days of hire.

4. Describe your company's ability to prioritize the Water Utility Authority as a customer, given the size of our fleet:

We understand the County's need for their supplier to meet their needs matching the 90 minute service call response times. We will have a dedicate sales representative handling this large account and will have great communication between the office and the county for all future calls, orders and retread needs.

5. Describe your experience working with large municipalities or fleets, and describe the various classification of vehicles and equipment your company can provide tires and services for:

Salesman on account Jeff Knox has personally handled the Water Authority for approximately 25 years. He handles the City of Albuquerque, Bernalillo County, and over a dozen other municipalities at this time. STM has maintained a great relationship with the Water Authority since buying the GCR Albuquerque location in 2019. We look forward to continuing this partnership long into the future.

STM provides tires (and services) for tires of almost any size, from wheelbarrows, lawnmowers and hand doleys to scrappers and mine equipment. We handle nearly everything in between, including passenger, light truck, industrial, off-the-road, and commercial of every size and type.

6. Describe your companies' procedures to ensure adequate stock and availability of tires and parts necessary for service:

STM is the largest tire buyer in North America, as such we have priority among all of our vendors. Locally, we place orders weekly to maintain as close to an uninterrupted flow of tire deliveries as possible. When vendors are not able to provide tires in an acceptable timeframe we have the ability to pull from one of our other 160 locations via weekly trailer shipments to Texas and Phoenix. We are also able to source tires from our in-house wholesale division, often ordering a trailerload at a time.

7. Describe your companies' billing and invoice process to ensure accurate and timely payments:

All completed retread work orders will be billed per invoice and a copy of the retread work order will be attached at the time of delivery. The work order and line number will be listed on the actual invoice to reference at the time of delivery for retreads, service and new tires. Invoices will be sent via email to all email addresses on our billing file for the County.

8. Other value-added services offered if a contract is awarded (ex. shuttle service; free pickup, free towing, delivery, vehicle washing, etc.).

All deliveries are made locally free of charge. We offer complementary coffee and water in our waiting room (Covid restrictions notwithstanding).

9. Please provide information regarding warranty coverage for tires and services:

The County will be provided with a sales representative that will assist in the warranty process through the retread facility, billing, and then to the end user. This representative will also assist with any manufacture needs.

10. Please provide a list of all manufacturer/brands of tires provided by your company.

Bridgestone/Firestone, Continental/General, Toyo, Yokohama, certain Michelin sizes, Hankook, and some off tier brands.

V. REFERENCES

Provide three references of your customers which are organizations of similar size to the Water Authority along with the contact persons' information.

Annual quantity of services furnished: \$51,000 YTD 2022

Appendix A Scope of Services

For as-needed tires and services ordered by the Water Authority, Contractor(s) will perform full tire service and/or repairs as requested within the Water Authority fleet profile. Contractor(s) will provide all necessary labor, materials, parts, accessories, assemblies, and/or components to meet OEM (Original Equipment Manufacturer) guidelines and quality. Pricing shall be based on time and materials for each order billed at the fees, hourly labor rates, and percentage of discount from current manufacturers' published catalogue list price or markup over cost for parts/supplies used by the Contractor during repairs or purchased directly by the Water Authority. No minimum hourly charges will be allowed. Contractor(s) shall provide documentation as requested by the Water Authority to validate material costs or manufacturer's list prices.

1. General Tire Specifications

The Contractor shall provide various tire sub-categories including, but not limited to those for Automobile/Passenger Vehicles, Light Duty Trucks Radial and Bias, Medium Commercial/Heavy Duty Trucks /Buses, Off-the-Road OTR and Low Speed Off Highway Tires (Radial and Bias).

All tires will be of quality not less than the tires normally furnished in representative quantities by Original Equipment Manufacturers (OEM) as original equipment for automobiles, trucks, tractors, buses, backhoes, loaders, motor graders, and other heavy equipment. Tires supplied must be marked with Federal Department of Transportation (DOT) compliance symbol. Tires shall conform to all applicable Federal Specifications. All tires, except for tires which are not manufactured annually, must be NEW and must have been produced or manufactured within the last one (1) year prior to delivery to the Water Authority. Tires which are not manufactured annually, such as low volume tires, will be accepted when produced or manufactured within the last two (2) years prior to delivery to the Water Authority.

Should a Contractor deliver tire(s) with a manufacturing date exceeding the one-year limit, excluding low volume tires which are not manufactured annually, the Contractor will pick up the expired tire(s) and replace them with tire(s) that meet the manufacturing date requirement for no additional fee to the Water Authority. All tires must have the size (including load range), manufacturer's name and DOT number, serial number and indication of body material molded in side-wall at time of cure. The application of any of the above by any other means such as branding, application of decals, etc. will not be acceptable.

Tires offered must have been tested to meet or exceed American Society of Testing and Materials (ASTM) Standard F1922 for highway tires, F1923 for Off Road/Low Speed tires, and meet operational performance levels and marking requirements of Federal Standards FMVSS 109 for new pneumatic passenger tires, FMVSS 139 for new pneumatic radial tires for light vehicles, and FMVSS 119 for new pneumatic non-passenger Multi-Passenger Vehicles (MPVs), trucks, buses, and trailers.

The European Tire and Rim Technical Organization (ETRTO) equivalent is an acceptable substitute for the P-metric passenger vehicle tires.

When new tires are mounted on a vehicle with a Tire pressure monitoring system (TPMS), the TPMS system will be reinstalled with a new washer, valve, and valve cap (TPMS service kit).

2. Tubes

All inner tubes must be standard production first line, heavy duty butyl tubes or natural rubber of fresh stock. All tubes must be of quality not less than the tubes normally furnished in representative quantities by OEM as original equipment for automobiles, trucks, tractors, buses, backhoes, loaders, motor graders, and other heavy equipment. Tubes must conform to all applicable federal specifications. All tubes must be NEW and must have been produced or manufactured within the last one (1) year prior to installation or delivery to the Water Authority.

3. Detailed Services Specifications

Product installation and repairs, such as mounting, rotation, and balancing, must be in accordance with manufacturer's recommended procedures of warranted new virgin product tires. This Contract covers the following tire services:

- Tire Installation with purchase in store includes dismount of used tires and tubes
- Change tire, dismount and mount
- Flat repair, remove, repair and mount
- Flat repair, off vehicle
- Rotate mounted tires (per tire)
- New valve stem rubber or metal
- Wheel balance - computer spin balance (per tire)
- Wheel balance - computer spin balance and valve stem combination
- Call out services for emergency repairs as needed at various locations
- Tire recycle and disposal (shall be completed per applicable laws, statues and regulations)
- Tire pressure monitoring system

4. Response and repair time requirements

Service request calls placed during normal business hours by an authorized Water Authority representative shall be acknowledged and arrangements for transportation made for same day pick-up and delivery.

Repairs shall be completed same day, unless otherwise approved by an authorized Water Authority representative. Repairs requiring more than two (2) business days will be brought to the attention of the Water Authority authorized representative, including an estimated date/time of completion.

Contractor(s) shall provide a daily status report detailing accurate and complete services provided under this Contract. The report shall be emailed daily by 4:00 p.m. to the contact listed for each Water Authority Service Center.

5. Invoice requirements

All work shall be authorized by a Water Authority representative prior to any work being performed, unless otherwise authorized by a Water Authority authorized.

Supplemental repairs found outside the original scope of work must be pre-approved by an authorized Water Authority representative via electronic communication prior to work being performed. Invoices for unauthorized modifications or additions will not be processed without prior authorization. Contractor(s) shall provide labor hours and discount for parts as indicated in this Contract with invoices.

At a minimum, invoices shall include the following: identify the Water Authority as the customer, the blanket contract (BP) number, the Water Authority issued blanket release authorization number, the four (4) or six (6) digit Water Authority equipment number, and a detailed description of work performed along with itemized parts and labor charges for items repaired with tax stated as a separate line item.

Invoices are to be electronically submitted via email to Vendorinvoices@abewua.org.

6. Inspection and acceptance

Each repair performed under this Contract is subject to a complete inspection by the Water Authority's Fleet Services Division prior to acceptance. Inspection criteria will include, but not be limited to, mechanical integrity, quality, workmanship and materials, and invoice accuracy.

If the repair is unacceptable, the Contractor shall pick up the vehicle within twenty-four (24) hours of being contacted and will correct the deficiencies and return the equipment at no additional cost to the Water Authority. The Water Authority will be the sole determiner of acceptability. The Contractor will be responsible for transportation of the vehicle and any towing costs associated. No invoices will be processed for payment until repairs are complete and accepted.

7. Safety, precautions and cleanliness

Contractor(s) shall perform all services in a safe manner for means, methods, techniques, procedures, and safety precautions regarding performance of these services. Contractor(s) shall be responsible for its employees for the execution of services. All repairs shall be performed to manufacturers' and or industry standards.

Contractor(s) shall always follow all local, county, state, and national regulations including OSHA, NFPA requirements, state, local and manufacturer operating procedures and generally accepted procedures for the type of equipment being repaired and the tools used.

Contractor(s) shall be responsible for implementing all final settings and adjustments in accordance with manufacturer's/owner's/engineer's specifications.

8. Vehicle storage

The Contractor's repair location must be able to accommodate and secure vehicles (either secured indoors or within a secured, lighted outdoor area) while in the process of being repaired or waiting for repairs or parts delivery.

9. Warranty

Contractor agrees that it will provide the Water Authority with the most favorable commercial warranties which Contractor gives to any customer for the goods or services and that the rights and remedies provided therein will extend to the Water Authority and are in addition to and do not limit any rights afforded to the Water Authority by law or under this contract. Contractor agrees not to disclaim warranties of fitness for a particular purpose or merchantability. All of Contractor's representations and warranties, both express and implied, constitute conditions of this agreement. In the event that the good or services are found to be defective or fail within the warranty period, Contractor will, at its own expense, promptly remedy the defects.

Albuquerque Bernalillo County Water Utility Authority (Water Authority)
TERMS AND CONDITIONS

IMPORTANT: READ CAREFULLY BEFORE PROVIDING GOODS, SERVICES OR CONSTRUCTION. FAILURE TO DO SO WILL NOT RELIEVE VENDOR OF RESPONSIBILITY TO PERFORM OR DELIVER IN ACCORDANCE WITH ALL APPLICABLE PROVISIONS.

- 1. General:** This price agreement is authorization to provide the goods, services or construction described on its face in accordance with the Terms and Conditions set out below and any attached offer submitted by Vendor and accepted by the Water Authority. These constitute the terms of the contract between the parties. If this price agreement results from a formal solicitation or separate contract, all or part of those documents are also made a part of the contract as specified in those documents referenced in this price agreement and will control over any conflicting provisions in these Terms and Conditions. Unless otherwise provided, this is an indefinite quantity contract; it is not exclusive to Vendor; the Water Authority may make similar purchases from other vendors as needed; and the Water Authority is not obligated to make any amount of purchases under the contract.
- 2. Packing, Shipping and Invoicing:** Department name AND price agreement number MUST be on all invoices, packages, packing slips, bills of lading, etc. The Department's count will be accepted by the Vendor as final and conclusive on all shipments not accompanied by a packing slip. Vendor will bear all risk of loss or damage until delivery to the Water Authority. Shipment is F.O.B. Destination unless price agreement states otherwise.
- 3. Delivery and Inspection:** Delivery will be strictly in accordance with the Water Authority's delivery schedule and instructions. Final inspection and acceptance will not be deemed to be a waiver by the Water Authority of its right to (a) cancel, reject or return, at Vendor's risk and expense, all or any portion of the goods, services or construction, or (b) make a claim for damages. Payment prior to inspection does not constitute acceptance.
- 4. Payment Terms/Discounts:** Payment terms are net thirty (30) days unless otherwise specified in the contract. Discounts, if offered, will be computed from the date of actual delivery or receipt of invoice, whichever is later.
- 5. Taxes:** All applicable gross receipts taxes are assumed to be included unless otherwise specified. The Water Authority will furnish, on request, a Non-Taxable Transaction Certificate. Determination of whether the tax is due and payment of the tax is the responsibility of the Vendor. Applicable taxes should be included in each invoice and may not be billed more than sixty (60) days after providing the goods, services or construction to which the taxes apply.
- 6. Commercial Warranty:** Vendor agrees that it will provide the Water Authority with the most favorable commercial warranties which Vendor gives to any customer for the goods, services, or construction and that the rights and remedies provided herein will extend to the Water Authority and are in addition to and do not limit any rights afforded to the Water Authority by law or under this contract. Vendor agrees not to disclaim warranties of fitness for a particular purpose or merchantability. All of Vendor's representations and warranties, both express and implied, constitute conditions of this contract. In the event that the goods, services or construction are found to be defective or fail within the warranty period, Vendor will, at its own expense, promptly remedy the defects.
- 7. New Material:** All items provided under this contract will be NEW and of most current production, unless otherwise specified.
- 8. Indemnification:** Vendor agrees to indemnify and hold harmless the Water Authority, its Board, officers, agents and employees against any and all damages, claims, expenses or other liability, including attorneys' fees, arising out of any (a) alleged or actual infringement or misappropriation of any copyright, patent, trademark, trade secret or other right based upon the goods, services or construction provided by Vendor pursuant to this contract; (b) negligence or willful misconduct of Vendor; (c) Vendor's failure to perform fully its obligations herein in a timely manner; or (d) breach of any of Vendor's representations and warranties herein.
- 9. Insurance:** Vendor will maintain in effect during the term of the contract, insurance of the kinds, in the amounts and in the form specified by the Water Authority, including, but not limited to: Commercial General Liability Insurance, Business Automobile Liability Insurance, and Workers' Compensation Insurance. As proof that such insurance is in effect, Vendor will furnish certificate(s) of insurance in a form satisfactory to the Water Authority prior to providing goods, services or construction under the contract.
- 10. Right to Audit/Inspection of Plant:** Vendor will maintain complete and accurate records of all financial transactions associated with this contract, including, but not limited to, invoices and other official documentation which sufficiently support all charges under this contract. Vendor will retain such records for six (6) years after final payment, or longer if required by law. Authorized representatives of the Water Authority may inspect and copy records pertaining to this contract at the Vendor's business office during normal business hours. Vendor will include this audit provision in any subcontracts that it may issue under this contract. The Water Authority may inspect, at any reasonable time, Vendor's plant or place of business related to the performance of this contract.
- 11. Default:** The Water Authority will have the right to cancel all or any part of this contract without cost to the Water Authority if the Vendor fails to meet the provisions of this contract and, except as otherwise provided herein, to hold the Vendor liable for any excess cost incurred by the Water Authority due to Vendor's default. Vendor will not be liable if failure to perform the contract arises out of causes beyond the control and without the fault or negligence of Vendor; such causes include, but are not restricted to, acts of God or the public enemy, acts of the State or federal government, fires, floods, epidemics, quarantine restrictions, strikes, freight embargoes, unusually severe weather and defaults of subcontractors due to any of the above, unless the Water Authority determines that the supplies or services to be furnished by the subcontractor were obtainable from other sources. The rights and remedies of the Water Authority provided in this paragraph are not be exclusive and are in addition to and do not limit any rights afforded to the Water Authority by law or under this contract.
- 12. Termination:** The Water Authority will also have the right to terminate the contract upon the occurrence of any one or more of the following events: (a) if sufficient appropriations are not made by the Water Authority Board. Such event will not be an event of default and the contract may be terminated at the end of the Water Authority's then current fiscal year upon written notice given by the Water Authority to Vendor; (b) without notice to Vendor, upon receipt of a notice of debarment of or ineligibility to receive funds by Vendor from any agency of the federal government or the State of New Mexico or a local public body of the State. (c) if Vendor is found to have engaged or is engaging in Unfair Business Practices as described in Section 2-376 of the Water Authority Procurement Ordinance; or (d) at any time for convenience by giving at least thirty (30) days' notice in writing to Vendor. In such event, Vendor will be paid under the terms of the contract for all goods, services or construction provided to and accepted by the Water Authority prior to the effective date of termination.
- 13. Assignment/Changes:** Neither the contract, nor any interest therein, nor claim thereunder, may be assigned or transferred by Vendor, except as expressly authorized in writing by the Water Authority. No such assignment or transfer will relieve Vendor from the obligations and liabilities under this contract. The terms of the contract may not be changed without the prior written approval of the Water Authority.
- 14. Compliance With Laws:** In performing the contract, Vendor will comply with all applicable laws, ordinances and codes of the federal, State and local governments, including, but not limited to the New Mexico Governmental Conduct Act, the New Mexico Human Rights Act, Title VII of the federal Civil Rights Act of 1964, the Americans with Disabilities Act of 1990, and all federal, State and local statutes, regulations and executive orders relating to civil rights. In addition, Vendor certifies that (1) it has not, either directly or indirectly, entered into action in restraint of free competitive bidding; (2) it will comply with the Ethical Conduct provisions (§2-390) and Unfair Business Practices provisions (§2-376) of the Water Authority Procurement Ordinance; and (3) it presently has no interest and will not acquire any interest, direct or indirect, which would conflict in any manner or degree with the performance of this contract. Vendor will obtain and maintain, and furnish to the Water Authority upon request, any and all permits, licenses, approvals, certificates and other documents required by the Water Authority, or otherwise required by applicable law.
- 15. Governing Law:** This Contract is governed by the laws of the State of New Mexico without regard to principles of conflicts of law. Any and all actions or proceedings relating to the subject matter of this contract will be maintained by and subject to the jurisdiction of State and federal courts located in Bernalillo County, New Mexico, which courts will have exclusive jurisdiction for such purposes.

IMPORTANT NOTICE: Before accepting a price agreement, always check for authenticity and require identification. The Water Authority will not be liable for purchases made by unauthorized individuals. (Rev. 07/01/2018)
